Professional Summary:

Results-driven Power Platform Developer with 4 years of experience designing, developing, and supporting enterprise applications using Microsoft Power Apps, Power Automate, Dataverse, SharePoint Online, and Power BI. Proven expertise in workflow automation, business process optimization, and migration of legacy solutions to modern cloud platforms. Experienced in building scalable Canvas Apps, complex approval workflows, and custom business applications that improve operational efficiency. Strong background in stakeholder collaboration, requirements analysis, troubleshooting, and delivering end-to-end solutions. Passionate about leveraging technology to solve business challenges and drive digital transformation initiatives.

Work Experience:

- **Cognizant Technology Solutions – Associate (Sep 2022 – Present)**
 - Developed and deployed business applications using Microsoft Power Apps, Power Automate, Dataverse, and SharePoint Online, automating business processes and improving operational efficiency.
 - Designed and implemented end-to-end Power Platform solutions, including requirements gathering, development, testing, deployment, and post-production support.
 - Resolved document locking issues by implementing custom locking mechanisms and robust error-handling frameworks, ensuring smooth workflow execution and improved reliability.
 - Successfully migrated and remediated Nintex workflows to the Microsoft Power Platform, modernizing legacy workflow solutions and ensuring seamless business continuity.
 - Built large scale PowerApps Canvas applications with 300+ controls, 40 screens featuring multi tab navigation, repeating sections, conditional logic, dynamic field visibility, and offline capabilities for improved usability.
 - Implemented complex Sequential and Parallel approval workflows in Power Automate with advance pattern such as All must approve, state machines, reminder flows and long running custom approvals.
 - Built and maintained a custom non-standard application leveraging Power Apps, and SharePoint to address complex business requirements.
 - Configured and customized SharePoint Online sites, lists, libraries, content types, permissions, and other out-of-the-box features to support collaboration and document management.
 - Designed and maintained Power BI dashboards and reports, enabling stakeholders to track key metrics and make data-driven decisions.
 - Collaborated with business stakeholders, project teams, and end users to analyse requirements, troubleshoot issues, and deliver scalable enterprise solutions.
 - Provided application support, defect resolution, enhancements, and continuous improvement for Power Platform and SharePoint-based solutions.
- **Silver Oak Health – Software Development Intern (Aug 2022 – Sep 2022):**
 - Developed and maintained web application features using Laravel, Bootstrap, and MySQL, ensuring functionality aligned with business requirements and project objectives.
 - Converted Figma designs into responsive, user-friendly interfaces, delivering consistent UI/UX experiences across the application.
 - Collaborated with the development team using GitHub for version control, code integration, and efficient management of development workflows.
 - Assisted in implementing and maintaining CI/CD pipelines to automate build and deployment processes, improving release efficiency and reducing manual deployment effort.
- **Webify Solutions – Web Development Intern (May 2021 – July 2021):**
 - Developed responsive web application features using HTML, CSS, Bootstrap, PHP, and MySQL, contributing to both front-end and back-end development.
 - Designed and integrated user interface components with server-side functionalities, including database management and backend logic implementation.

- Optimized application performance and resolved technical issues through debugging, testing, and code improvements.
- Collaborated with a fast-paced startup team to deliver scalable web solutions and meet project milestones within defined timelines.

Skills:

- **Microsoft Power Platform:** Power Apps (Canvas Apps), Power Automate, Power Fx, Dataverse
- **Microsoft 365:** SharePoint Online, Teams, Outlook, Microsoft Office Suite, Copilot
- **Web Technologies:** HTML5, CSS3, Bootstrap
- **Programming & Query Language:** SQL, REST APIs, PowerShell
- **Tools & Development Environment:** Visual Studio Code, Git, GitHub, MySQL, Figma, Nintex Workflow, ShareGate Migration
- **Automation & AI:** AI Builder, GitHub Copilot, Prompt Engineering, AI-assisted development (Vibe Coding)

Achievement:

- **Star of the Month:** Recognized for exceptional performance and accountability in delivering high-quality solutions, driving successful project execution, and exceeding delivery expectations.
- Earned the Cheers Badge and achieved a 95%+ CSAT rating for successfully delivering Power Platform solutions, ensuring timely project completion, and exceeding client expectations.

Certification and Badge:

- **PL-900:** Microsoft Power Platform Fundamentals
- Context Engineering Foundations (Cognizant)

Individual Project:

- **Portfolio Website:**
 - Designed and developed a responsive personal portfolio website to showcase projects, technical skills, professional experience, and achievements.
 - Created and deployed a modern web interface with a clean UI to effectively present career highlights and project work.
 - **Tech Stack:** HTML, CSS, Bootstrap, GitHub
- **Resume Finder:**
 - Designed and developed a responsive Power Apps Canvas application to shortlist resumes based on job descriptions and project requirements, improving candidate screening efficiency.
 - Integrated AI Builder and applied prompt engineering techniques to automate resume analysis and enhance relevance-based candidate matching.
 - **Tech Stack:** PowerApps (Canvas Apps), Power Automate, SharePoint, AI Builder

Education:

PDPM IIITDM – Jabalpur <i>Bachelor of Technology (Computer Science Engineering)</i>	2018 – 2022
Boon School – Kakinada <i>High Secondary (XII)</i>	2016 – 2018
Goethals Memorial School – Kurseong <i>Secondary (X)</i>	2014 – 2016
